# PART TWO Kick Point Guide

## Kick Point Guide

Find your suitable stick

**MID**

Focus on power and velocity for wrist & slap shots

**HYBRID**

Versatility for all types of shots

**LOW**

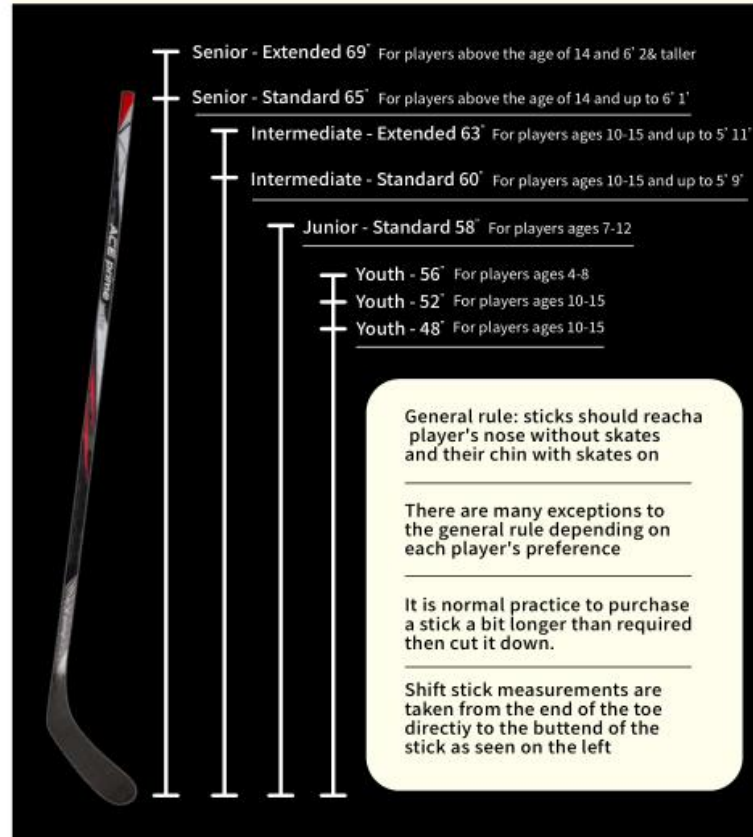

Focus on release and quickness for snap shots

**Puck Speed**

**Quick Release**

## Height Guide

Find your suitable stick

For Reference(according to customers'request)

Age	Flex	Inch (from heel)	Finish Length(mm)
YTH	20	46	1290
	30	50	1400
JR	40	52	1450
	50	54	1520
INT	55	56	1570
	60	57	1615
	65	57	1690

	80	61	1715
	95	62	1740
	100	63	1765
	105	64	1790

# Toppest Level—ARCANE—Ultra Low Kick

## KEY FEATURES

T1100  
CARBON FIBER BODY  
AVIATION GRADE FIBER

OPTIMIZING FOR  
EXPLOSIVE ATHLETES

ULTRA LOW  
KICK POINT

SHAFT SHAPE : D

## ADVANCED BLADE TECHNOLOGY

### ULTRA-LIGHTWEIGHT 80g DESIGN

Achieves industry-leading 80g weight while maintaining robustness, enhancing shooting speed and puck control.

### FULL CARBON FIBER WRAP

A fully wrapped outer-edge reinforcement significantly enhances the blade's overall strength and durability.

### THREE-STAGE REINFORCED SKELETON DESIGN

A three-stage reinforced structure provides the blade with a perfectly balanced internal framework, allowing force to be distributed evenly during shots—significantly improving overall strength and durability.

### PATENTED SHOCK-ABSORBING INSERT

Proprietary, patent-grade dampening material in the blade's lower section dampens vibrations and boosts stability, ensuring puck feel.

By reducing blade thickness, the blade achieves enhanced stiffness and clearer puck feel, resulting in less energy loss at impact and quicker, more immediate response.

## MATERIAL ARCHITECTURE

Built with T1100 high-modulus carbon fiber, HCF aerospace-grade fibers, and our advanced self-developed resin, this stick delivers a perfect balance of strength, lightness, and precision.

Every layer is engineered to optimize energy transfer, enhance shot accuracy, and maximize durability. The ultra-light carbon fiber accelerates swing speed, the aerospace-grade fibers ensure explosive energy release, and the premium resin guarantees unmatched structural integrity.

Experience a stick where cutting-edge materials translate directly into superior performance on the ice.

HCF Aerospace Fiber

## ARCHRING DUAL-LOOP STRUCTURE

LOWEST KICK POINT ARCHRING DUAL-LOOP AEROX TORSION LINK

ARCANE combines the revolutionary ARCHRING Dual-Loop Structure with AEROX Torsion Link Technology to redefine release speed and control.

The ultra-low kick point allows quicker loading and explosive recoil with minimal motion, while the reinforced shaft-to-blade connection increases torsional stiffness for maximum energy transfer and pinpoint accuracy.

# TOP —HIT ultra 2—HYBRID KICK

Designed for elite two-way players, the Hit GRIT features an optimized hybrid kick point, delivering an ideal balance between shooting efficiency and stable puck reception and passing.

Built with advanced T800 carbon fiber layering, the stick offers an exceptionally lightweight feel without compromising durability—enhancing on-ice efficiency while helping reduce player fatigue.

## MATERIAL ARCHITECTURE

Built with T800 high-modulus carbon fiber, and our advanced self-developed resin, this stick delivers a perfect balance of strength, lightness, and precision.

Every layer is engineered to optimize energy transfer, enhance shot accuracy, and maximize durability. The ultra-light carbon fiber accelerates swing speed, the aerospace-grade fibers ensure explosive energy release, and the premium resin guarantees unmatched structural integrity.

Experience a stick where cutting-edge materials translate directly into superior performance on the ice.

T 800 Carbon Fiber  
Advanced Self-Developed Resin

## ADVANCED BLADE TECHNOLOGY

### ULTRA-LIGHTWEIGHT 80g DESIGN

Achieves industry-leading 80g weight while maintaining robustness, enhancing shooting speed and puck control.

### FULL CARBON FIBER WRAP

A fully wrapped outer-edge reinforcement significantly enhances the blade's overall strength and durability.

### THREE-STAGE REINFORCED SKELETON DESIGN

A three-stage reinforced structure provides the blade with a perfectly balanced internal framework, allowing force to be distributed evenly during shots—significantly improving overall strength and durability.

### PATENTED SHOCK-ABSORBING INSERT

A reinforced shock-absorbing structure at the blade's bottom edge provides enhanced protection when striking the ice.

### Large-cell cross-linked foam

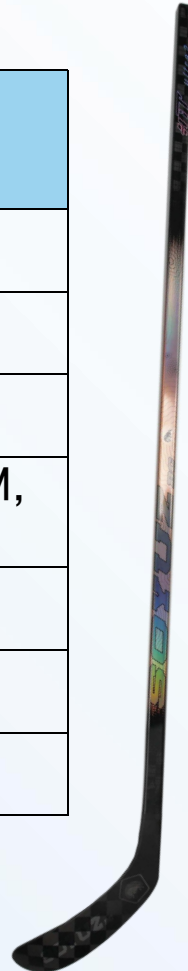

The interior features large-cell cross-linked foam, providing enhanced cushioning for puck reception and passing, resulting in smoother, more controlled plays.

The new-generation Soyuz blade features a softened heel and reinforced toe design.

By optimizing thickness and stiffness at the heel, it delivers a clearer puck feel and more stable, precise passing and reception, while the reinforced toe provides greater stiffness for more powerful shots and higher shooting efficiency.

# ICE HOCKEY SKATES

# SOYUZ bc BBS SP Skates

specification	
Level	TOP/Professional
Technologies & Protection	UHMWPEF, AntiWBS,UPE-SW120,IXPEFOAM
Line	BBS SP
Release Year	2025
Age Group	SR/ INT
Color	Black+White/Black+Red
Size Range	4-10.5 FIT1, FIT2, FIT3

- 1 The outer boot is made from a premium composite material (Ultra High Molecular Weight Polyethylene Fiber - UHMWPEF) reinforced with carbon fiber, providing exceptional stiffness and support. Thanks to its enhanced thermoformability, the boot offers a customized fit, while an additional UPE-SW120 foam layer ensures superior softness and comfort. Memory foam in the ankle area helps prevent discomfort and blisters.
- 2 The inner lining, made with AntiWBS technology, wicks away moisture to keep your feet dry while keeping the skates lightweight. SOYUZ BC BBS SP skates feature a removable tongue, allowing players to choose the preferred level of stiffness and comfort.
- 3 The comfortable insole provides effective foot support, while the memory foam used in the tongue construction better adapts to the shape of the instep.
- 4 High-tech SOYUZ BC holders allow for quick and easy blade replacement in any situation.

SOYUZ BC BBS SP skates come equipped with premium SOYUZ BC blades

# SOYUZ bc BBS1 Skates

specification	
Level	TOP/Professional
Technologies & Protection	UHMWPEF, AntiWBS, EVA, IXPEFOAM
Line	BBS1
Release Year	2024
Age Group	SR/ INT
Color	Black+White
Size Range	4-10.5 FIT1, FIT2, FIT3

SOYUZ bc BBS 1 Skates - 2024 Model. Engineered for professional players seeking exceptionally lightweight skates.

The boot's external shell is made from a composite material (UHMWPEF) with added carbonfiber, providing exceptional stiffness and foot support. Thanks to its thermoformability, the boot ensures a custom, personalized fit.

The seamless internal lining, enhanced with memory foam, wraps anatomically around the foot, eliminating potential issues with player foot chafing.

The SOYUZ bc BBS 1 skates feature a removable tongue, allowing the player to select a tongue with the desired stiffness. The ergonomic insole provides effective foot support, and the memory foam used in the protective tongue's construction better adapts to the contour of the instep.

The skates are equipped with SOYUZ bc holders and blades.

# Hockey Skates Blades

specification	
Material	Carbon Steel 440A
Coating	Titanium coating
Hardness	56HRC
Age Group	SR/ INT /JNR 1-11
Size Range	212,221,230,238,246,254,263, 272,280,288,296

Professional replacement hockey skate blades for the field player. The blade is crafted from a high-quality metal alloy with added titanium and beryllium - this "secret weapon" makes gliding even faster. The unique metal alloy allows the athlete to achieve and maintain maximum speed. The blades are coated with multiple layers of carbon nanoparticles, creating an incredibly hard, durable, and reliable blade. A titanium coating also forms an exceptionally thin, hard edge. The hard edge of the blades withstands impacts for extended periods without losing sharpness.

PART THREE

# PROTECTIVE GEARS

# SOYUZ bc BBS1 Pants

specification					
Level	TOP/Professional				
Technologies & Protection	RMP, Anti-WBS, EVA, IXPEFOAM, CURV				
Line	BBS1				
Release Year	2025				
Age Group	SR/ INT /JNR				
Color	Black/Light Blue/Dark Blue/Red/Gray/Green				
Fit	Anatomical				
Adjustment Range	2.5cm extension				
Size Range	SR	M (170-180)	L (175-185)	XL (180-195)	XXL (185-200)

JR	S (127-147)															

The SOYUZ bc BBS1 chest guard is the ideal choice for professional hockey players. It provides complete freedom of movement thanks to its ergonomic design and the use of modern materials, enabling maximum performance on the ice. By incorporating CLIRV composite material in the construction, the RMP technology ensures a high degree of protection for the biceps and chest without restricting mobility or adding excess weight. It also possesses a unique ability to adapt to the player's body shape, guaranteeing a custom fit and comfort during game play. The IXPEFOAM foam material allows for quick and smooth movement on the ice, while the Anti WBS inner lining manages moisture and prevents unpleasant odors. This technology combination creates an optimal micro climate inside the chestguard.

# SOYUZ bc BBS1 Hockey Shin Pads

specification	
Level	TOP/Professional
Technologies & Protection	RMP, Anti-WBS, EVA, IXPEFOAM, CURV
Line	BBS1
Release Year	2025
Age Group	SR/ INT /JNR
Color	Black+Blue
Fit	Anatomical
Adjustability	Yes
Size Range	10" 11" 12" 13" 14" 15" 16" 17"

SOYUZ bc BBS1 shin pads are the optimal choice for professional hockey players. They combine high-level protection, comfort, and maneuverability. SOYUZ bc shin pads are modern, high-tech equipment specifically designed to enhance hockey performance. Crafted from high-quality composite materials, they blend lightness with strength, ensuring reliable protection and durability. The ergonomic design guarantees an excellent fit on the leg and minimizes slippage during movement. The protection system, featuring multi-layered EVA and IXPE foam padding, effectively absorbs impacts and reduces the risk of injury. Every design detail of the shin pads is meticulously crafted to meet player demands for safety and comfort.

Adjustable straps allow the player to precisely fit the shin pads to their body, ensuring a perfect fit and maximum stability during play. The straps keep the guards securely in place even during intense on-ice movements, preventing displacement and guaranteeing dependable protection.

# SOYUZ bc BBS1 Hockey Elbow Pads

specification	
Level	TOP/Professional
Technologies & Protection	RMP, Anti-WBS, EVA, IXPEFOAM, CURV
Line	BBS1
Release Year	2025
Age Group	SR/ INT /JNR
Color	Black+Blue
Fit	Anatomical
Adjustability	Yes
Size Range	SR    M    L    XL
	INT   M    L
	JR    S    M    L

SOYUZ bc BBS1 elbow pads are the optimal choice for professional hockey players. They are designed to provide the player with maximum mobility without compromising protective properties. The elbow cap utilizes lightweight and durable EVA and IXPE foam. It deforms comfortably upon impact and effectively dissipates shock energy, while also featuring enhanced ventilation. For bicep and forearm protection, inserts made from CURV composite material are used, known for their low weight and excellent protective qualities. The SOYUZ bc BBS1 elbow pads feature a deep anatomical cut with secure straps, ensuring a completely tight and comfortable fit on the elbow. The inner lining incorporates AntiWBS technology, which effectively wicks away moisture and prevents the growth of bacteria and the development of unpleasant odors.

PART FOUR  
**GLOVES**

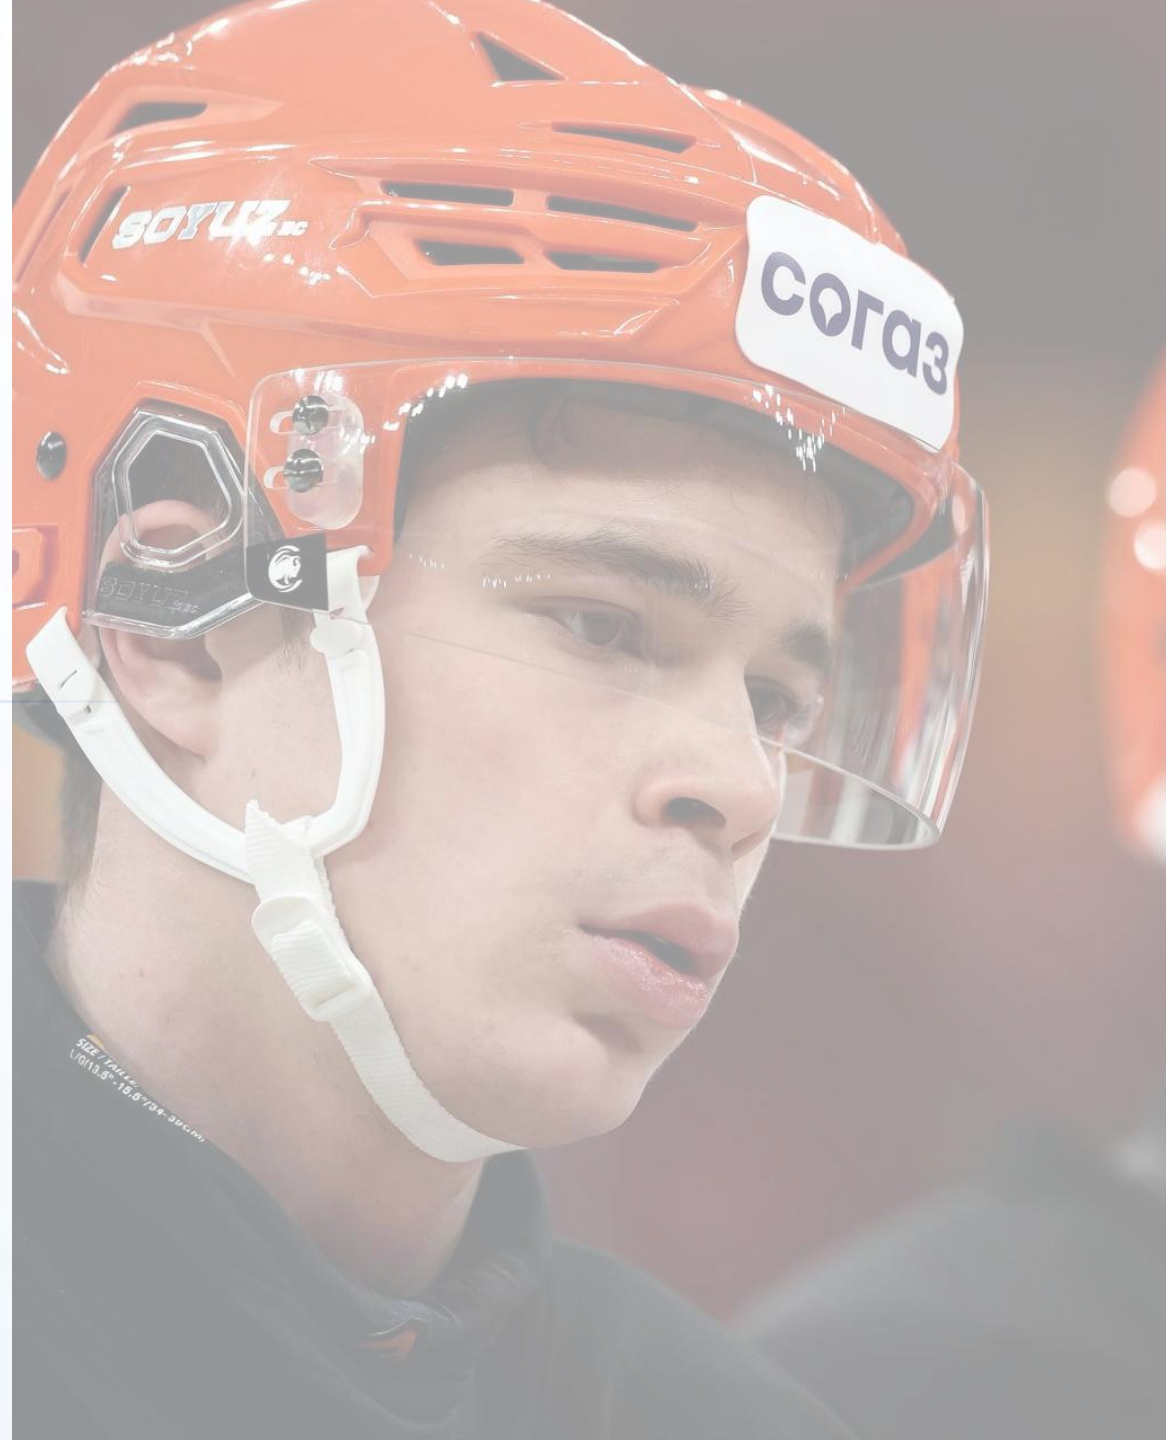

# Elite Level—Gloves BBS SP

specification	
Level	TOP/Professional
Technologies& Protection	RMP, AntiWBS, EVA, IXPEFOAM
Line	BBS SP
Release Year	2026
Age Group	SR/ INT /JNR
Size Range	10” 11” 12” 13” 14” 15”
Color	Red, Navy Blue, Black
Design Innovations	The thumb features a three-piece design, providing enhanced flexibility and better mobility.

PART FIVE  
**HELMETS**

---

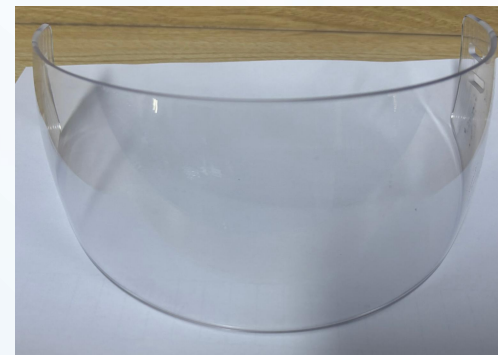

# SOYUZ bc BBS SP Hockey Helmets

Release Year	2026
Age Group	SR
Size Range	S、M、L
Color	Red, White, Orange, Gray, Navy Blue, Black,Green

# SOYUZ bc BBS SP Hockey Face Mask&Visor

specification	
Level	TOP/Professional
Release Year	2025
Age Group	SR

PART THREE  
**ACCESSORIES**

# BBS1 PRO Neck Guard

specification	
Level	TOP
Upper Material	Cut-resistant fabric, non-Newtonian rubber
Bottom Material	PU leather;polyester mesh, polypropyleneplate
Release Year	2024
Size	Universal
Color	Black

This protector is designed to shield a hockey player's neck from cuts by a skate, or impacts from a stick or puck. The protector provides comprehensive coverage around the entire circumference of the player's neck. The special fabric and protective inserts absorb 98% of impacts and prevent any lacerations. This guard minimizes injuries to the carotid sinuses and larynx, as well as trauma to the dorsal neck area.

# SOYUZ bc Skate Laces

Traditional skate laces made from high-quality materials, featuring reliable aglets at the ends, ensuring the accessory meets the highest standards. The laces do not stretch and possess high resistance to abrasion and cuts. Waxed Skate Laces with double stitching. This version is ideal for players who prefer a more secure and rigid foot lockdown in the skate boot. The wax coating effectively reduces lace slackening during training and games. Unwaxed (Cotton) Skate Laces with double stitching. This version suits players who prefer a softer foot fixation in the skate boot.

Size Range: 244cm,274cm,305cm

# SOYUZ bc 3D Printed Insoles

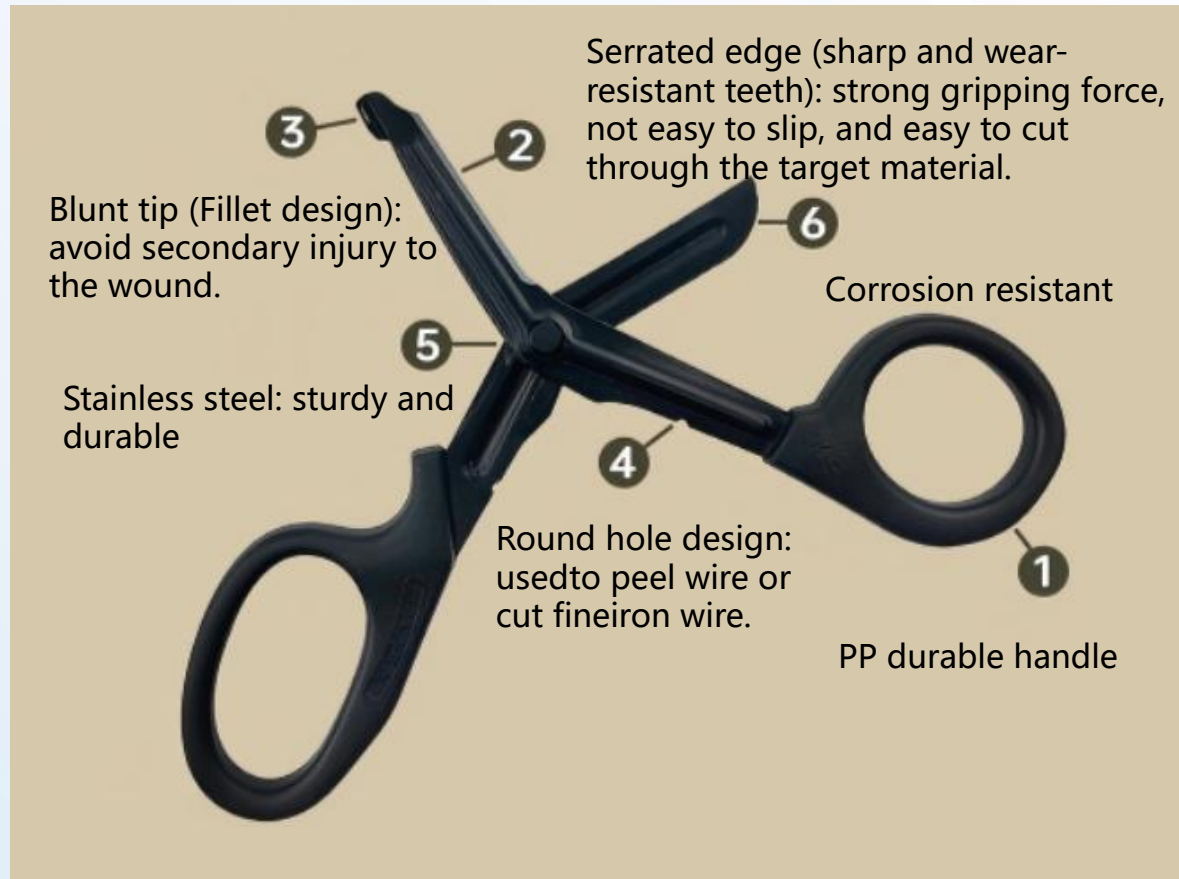

SOYUZ 3D printed ice hockey insoles are designed for professional players.

Core features:

- 1.3D printing technology: Precise customization, perfect fit for your foot shape, providing all-round support and comfort.
- 2.Breathable perspiration system: The specially designed holes and structure of the insole allow sweat to be quickly discharged through the sole, keeping it dry and reducing the feeling of wetness.
- 3.Improve comfort: The moderately soft and hard material provides proper support for your soles and relieves the pressure caused by long-term exercise.
- 4.Professional performance: It has been widely praised by professional players in many leagues, which is enough to prove its excellent performance and comfort.

# SOYUZ bc Scissors

# SOYUZ bc Bags

SOYUZ bc PREMIUM WHEELED BAGPRO SR

Key Features: High-quality dual-sided ventilation panels Reinforced base with a telescopic handle and inline wheels

Dimensions: 35" x 20" x 18"

SOYUZ bc REFEREE BAGPRO SR

Key Features: Durability & Lightweight  
Constructed from 6000 Ripstop Polyester. Organized Storage: Segmented internal compartments and accessory pockets enhance convenience and keep gear tidy. Comfortable Transport: Features an extra-durable shoulder strap with soft padding for easy carrying and added comfort.

Dimensions: 30" x 15" x 15"

SOYUZ bc HAND BAG PRO

Key Features: This functional and convenient bag is equipped with two handles and one de-tachable shoulder strap. Thanks to its capacity, high-quality materials, and reliable stitch construction, the bag can be used for carrying heavy equipment.
